Remote Usability Testing
Report of Zackery Key

Project Report

Task: 1

Prototype Title : Taniti Project

Prototype Description : Can you find out where to look at lodging options? Can you find out what activities are available for Taniti Tourist? Do the navigation links give adequate data and information to locate what you need? What is the voltage of power outlets in Taniti? Can you find and make a reservation for a trip to Taniti?

Task: 2

Reviewed Prototype : Taniti Prototype

Prototype of : Liban Mohamed

Feedback : This is a good website but the experiences need more activities listed please. The navigation is simple and intuitive

Task: 3

Reviewed Prototype : Taniti Island's Prototype

Prototype of : Priscila Perez

Feedback : The prototype is nice and has some color. Would have liked to see some images and answers to the FAQ questions. Usability test were easy to find as was navigating the website. All in all a good job!

Task: 4

Reviewed Prototype : C856 Taniti Prototype

Prototype of : Jennifer Dunlap

Feedback : All in all a good design. I was able to find most all of the usability task on the first go. I touched on possibly adding the drinking age to FAQ. Add a pricing for the resort might be nice as well.

Project Review

Review: 1

Feedback : This is an incredible prototype for the island's website. It is very interactive, intuitive and amazing. I love every single thing about it and its beyond professional. 10/10, one of the best!

Review: 2

Feedback : I would have rather there not be a drop down on the navigation bar. I think it would have been quicker/easier to just have links to everything since there weren't that many pages. As for the reservation trip, it asks can I find and make a reservation. I indeed found it, and I filled it out. But, there was no verification that it was made.

Review: 3

Feedback : The layout of the site is satisfying, consisting of great images (even slideshows, a wonderful touch) and all of the essential tourist information presented in an organized, simple, and clean manner. The navigation is clear, and it is easy to find what you're looking for. I had no problem finding anything that was specified in each of the usability tasks. There were no big issues that I could see. Great work!
